

# WAY OF THE CROSS

“ If you were to imagine to be under the Cross and looking up at the face of Christ, who is about to die, if you were to look at His eyes fixed upon you, that for one moment would be fixed upon you, and you were to look at them in that instant, you would not be able to shake off that image. Then, for the rest of your life, in looking at the sun, in looking at the sky, in looking at the sea, in looking at the stars, in looking at the walls of your home, you would not forget the penetrating blade of that gaze. Not as a creeping terror but rather as a strange goodness that conquers.” *Fr Luigi Giussani*
